REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims define a toilet paper holder comprising a roll paper retainer with a back plate, a pair of holding members, supporting members for supporting the roll paper, which have guide portions at the sides, and a holding plate with a rear plate that is parallel to the back plate, which slides vertically in the guide portions. House (4,099,681) teaches a toilet paper holder comprising a roll paper retainer with a back plate, guide portions, a holding plate with a rear plate that is parallel to the back plate, which slides vertically in the guide portions, but does not teach supporting member for supporting the roll paper. Ross (405,121) teaches a paper holder comprising a roll paper retainer with a back plate, a pair of holding members, supporting members for supporting the roll paper, which have guide portions at the sides, and a holding plate, but does not teach a holding plate with a rear plate that is parallel to the back plate, which slides vertically in the guide portions. It would not have been obvious to use the references in combination with other prior art teachings to meet the claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
